## INFORME DE BÚSQUEDA Y SÍNTESIS DE EVIDENCIA

Fecha 07/04/2021

### A. Pregunta clínica

En personas con diagnóstico o sospecha de COVID-19 ¿Se deben “antibióticos en adición a tratamiento estándar” en comparación a “tratamiento estándar”?

#### **Análisis y definición de los componentes de la pregunta en formato PICO**

**Población:** Personas con diagnóstico o sospecha de COVID-19.

**Intervención:** Usar antibióticos en adición a tratamiento estándar.

**Comparación:** Tratamiento estándar.

**Desenlaces (outcomes):** Mortalidad, ventilación mecánica invasiva, eventos adversos.

### B. Métodos

Se realizó una búsqueda electrónica en las bases de datos MEDLINE y EMBASE mediante desde su fecha de inicio hasta marzo de 2021 (Anexo 1). Se identificaron 754 artículos potencialmente relevantes entre MEDLINE y EMBASE. Posterior a la lectura de título, abstract y full text, quedaron 17 estudios (Anexo 2). Al eliminar duplicados, finalmente se seleccionaron 8 ensayos clínicos aleatorizados relevantes para responder la pregunta según los criterios de búsqueda.

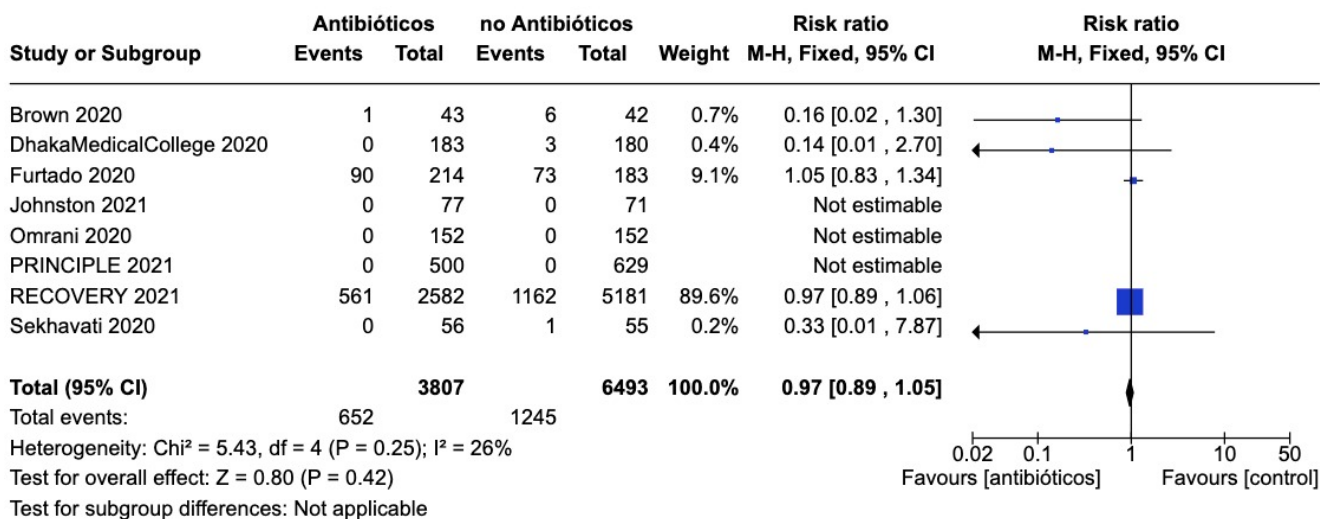

### C. Efectividad, Seguridad del Medicamento y Certeza en la Evidencia.

El efecto relativo fue calculado mediante un meta-análisis de riesgos relativos utilizando un modelo de efecto aleatorio. El efecto absoluto fue estimado a partir del riesgo relativo y el riesgo observado en grupos controles de los estudios incluidos. Los cálculos fueron realizados utilizando el *Software Review Manager* de la Colaboración Cochrane (*Version 5.4. Copenhagen: The Nordic Cochrane Centre, The Cochrane Collaboration, 2014*)

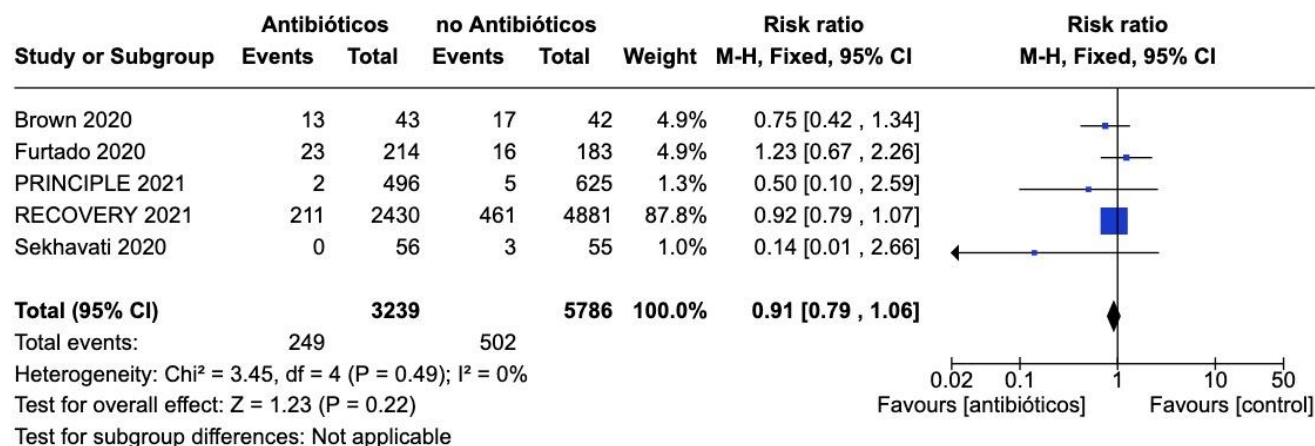

La certeza de la evidencia fue evaluada siguiendo el método GRADE(1,2) que el Ministerio de Salud de Chile ha adoptado como estándar. Finalmente, los mensajes clave en términos sencillos fueron elaborados siguiendo un método estandarizado que se basa en el tamaño del efecto y la certeza de la evidencia(2).

## Metanálisis

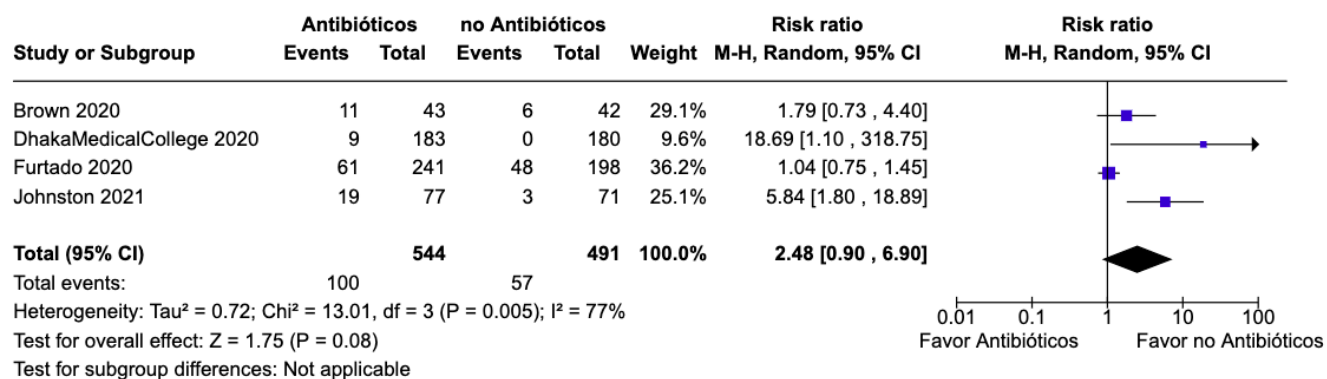

### 1. Mortalidad

## 2. Ventilación mecánica invasiva

## 3. Eventos adversos (gastrointestinales)

#### 4. Eventos adversos cardiacos (arritmias)
